Lagos, Nigeria

Professional Summary

Quality-driven Medical Laboratory Scientist and ISO 15189:2022–trained Quality Officer with hands-on experience in clinical diagnostics and accreditation-based laboratory operations. Skilled in implementing laboratory quality management systems, SOPs, document control, internal quality control, audit support, and corrective and preventive actions to resolve non-conformities and prevent recurrence. Demonstrated commitment to patient safety, data integrity, and reliable diagnostic reporting, with experience working across hospitals, diagnostic laboratories, and NGO-supported health programs.

EDUCATION AND TRAINING

- **Nadex Medical** **January 2026**
  Training on Quality Management System and ISO 15189:2022 Implementation Towards Accreditation.
- **Bio- Rad Laboratories** **November 2025**
  Foundation of Lab Quality: Internal QC in Practice
- **Sigma Systems / Sigma Foundation** **October 2025**
  Medical Laboratory Analytics Master Class: Harnessing Artificial Intelligence for Laboratory Leadership.
- **Cheers Medical Diagnostic Limited** **June 2025**
  Step-Down Training on ISO 15189:2022 Quality Management System
- **Dan James Services** **April 2025**
  Post-Installation Fire Safety Awareness Training
- **University of Benin, Edo state, Nigeria** **2021**
  Bachelor of Medical Laboratory Science

LICENSE

- Medical Laboratory Science Council of Nigeria **2023**

PROFESSIONAL EXPERIENCE

Quality Assurance Manager **July 2025 – Present**

Cheers Medical Diagnostic Limited, Lagos, Nigeria.

- Implemented and maintained Laboratory Quality Management Systems (LQMS) in alignment with ISO 15189:2022 and international accreditation requirements.

- Developed, reviewed, and controlled Standard Operating Procedures (SOPs), policies, and quality manuals to ensure regulatory compliance and standardization.
- Coordinated internal quality control (IQC) activities and monitored quality indicators to ensure accuracy, reliability, and consistency of laboratory results.
- Supported internal and external audits, including accreditation readiness assessments, documentation review, and corrective action implementation.
- Led risk management activities, including identification of non-conformities, root cause analysis, and implementation of Corrective and Preventive Actions (CAPA).
- Oversaw equipment management, including calibration schedules, maintenance records, validation, and service documentation.
- Collaborated with laboratory scientists, clinicians, and management to drive continuous quality improvement and strengthen laboratory performance.
- Conducted staff quality training and sensitization on SOP compliance, quality improvement, biosafety, and patient safety.
- Monitored patient safety and sample integrity, ensuring proper specimen collection, handling, storage, and reporting.

Medical Laboratory Intern **November 2023 – November 2024**

Federal Medical Center Idi-Aba, Abeokuta.

- Assisted in routine laboratory testing across core units including Hematology, Clinical Chemistry, Microbiology, Histopathology, Serology, and Urinalysis under direct supervision.
- Supported specimen collection, reception, labeling, processing, and storage in accordance with laboratory SOPs.
- Gained hands-on exposure to laboratory equipment operation, reagent preparation, calibration processes, and maintenance routines.
- Assisted in inventory management, including reagent tracking, stock documentation, and expiry monitoring.
- Participated in laboratory meetings, audits, and quality improvement activities aligned with ISO 15189–based practices.

Student Laboratory Posting **2019**

University of Benin Teaching Hospital, Benin, Edo State.

- Assisted with patient sample collection following standard laboratory and infection control procedures.
- Performed phlebotomy procedures, including venipuncture for routine testing and blood bank support, under supervision.
- Accurately documented and recorded patient test results in laboratory registers and records.
- Supported general and routine laboratory operations, including sample handling, basic testing procedures, and housekeeping.

- Adhered to biosafety, patient identification, and specimen handling protocols at all times.

VOLUNTEER EXPERIENCE

- **Central Hospital, Auchi, Edo State, Nigeria.** **2022**
  Volunteer Laboratory representative
- **Nigerian Army School of Electrical Mechanical Engineering Medical Registry System.** **2017**
  Volunteer Laboratory representative
- **Medical Outreach (Volunteer Medical Laboratory Science Association).** **2024**
  Volunteer Laboratory representative
