ABDUL QAYUM AKINDELE

Cybersecurity Student | Technical Writer | IT Support & Technology Researcher
Ibadan, Nigeria | +234 814 209 4339 | akindeleabdulqayum@gmail.com
Portfolio: abdulqayum.netlify.app | GitHub: github.com/abdulqayumakindele | LinkedIn: linkedin.com/in/abdul-qayum-akindele-bb33573a3

PROFESSIONAL SUMMARY

100 Level Cybersecurity student at LAUTECH with hands-on practice in Python, Linux (Kali) and networking/DNS fundamentals, and a record of publishing technology and cybersecurity content. Founder of OFF_LIMIT TECH, which turns complex security topics into clear, beginner-friendly material. Seeking an internship, IT support, or remote technical writing and content role where I can contribute reliably while building professional experience.

EDUCATION

Ladoke Akintola University of Technology (LAUTECH), Ogbomosho
Cybersecurity | 100 Level, 2026/2027 session

Al Qalam Articulate College
WAEC (SSCE), 2025 | Former Head Boy

PROJECTS

Python Port Scanner | GitHub
- Built a Python tool that scans network ports, applying networking and scripting concepts; documented its purpose and authorized use.

DNS Tool and Technical Article | GitHub
- Developed a DNS-related tool and wrote an accompanying article explaining DNS records and how resolution works.

Personal Portfolio Website | abdulqayum.netlify.app
- Designed and published a portfolio site presenting my projects, writing and cybersecurity learning.

EXPERIENCE

Founder and Content Creator, OFF_LIMIT TECH (Independent, ongoing)
- Research technology and cybersecurity topics and publish explainers, updates and awareness content for digital platforms.
- Write beginner-friendly tutorials and articles that simplify technical concepts for general audiences.
- Plan content workflows, including scripts, research notes and repurposing articles into short-form posts.

SKILLS

Technical: Python fundamentals, Linux and Kali Linux, networking and DNS basics, GitHub, cybersecurity fundamentals
Writing & Research: Technical writing, documentation, README files, blog and article writing, research and source evaluation, cybersecurity awareness content, YouTube and short-form scripts
Tools & Other: AI tools and AI-assisted workflows, content repurposing, communication, leadership

CERTIFICATIONS AND TRAINING

- Cisco Networking Academy: Introduction to Cybersecurity; Ethical Hacker
- Anthropic: Claude 101; Claude Code 101; Claude Platforms 101; AI Fluency
