JESSE SHEYIN CHOK

ARCHITECT | ARCHITECTURAL DESIGN & COORDINATION | CONSTRUCTION DOCUMENTATION

Lagos, Nigeria | +234 803 132 1142 | Sheyinjesse@gmail.com

PROFESSIONAL PROFILE

Architectural professional with experience in architectural design, technical documentation, construction coordination, design development and project administration. Experienced in developing architectural information from client requirements and concept development through detailed drawings and construction-oriented documentation, while coordinating design information with construction requirements and project stakeholders. Strong attention to drawing accuracy, revision control, buildability, documentation and resolution of design issues. Additional operational experience in reporting, records management, materials/resource tracking and cross-department coordination.

CORE DESIGN & PROJECT COORDINATION SKILLS

- Concept to Technical Design Development
- Architectural Design Coordination
- Construction Drawing & Documentation
- Design Information Management
- Drawing Review & Quality Checking
- Revision & Document Control
- Consultant / Contractor Liaison
- Site & Construction Coordination
- Design Issue & RFI Support
- Design Change Tracking
- Buildability Review
- Client & Stakeholder Communication
- Project Reporting & Documentation
- Materials & Resource Tracking
- AutoCAD / CAD-Based Documentation
- Architectural Detailing
- Problem Solving & Coordination

PROFESSIONAL EXPERIENCE

INVENTORY CONTROL OFFICER | SIFAX PORTS AND CARGO HANDLING SERVICES
Lagos, Nigeria | April 2026 – Present

- Prepare daily, weekly and monthly reports using Microsoft Excel and other office applications, maintaining accurate operational information for management review.
- Enter, update and verify operational data, supporting reliable records and document control.
- Monitor operational activities, identify discrepancies and exceptions, and report issues to management for appropriate action.
- Coordinate with different departments to obtain information and resolve documentation or operational issues.
- Track materials, resources and operational requirements, supporting effective resource availability and workflow management.
- Maintain accurate and confidential company records and support organised filing and documentation processes.
- Compile operational data and prepare management reports to support monitoring, review and decision-making.

JUNIOR ARCHITECT / ARCHITECTURAL DESIGNER | BEN ARC CONSTRUCTION COMPANY
January 2023 – December 2025 | Kaduna, Nigeria

- Develop architectural designs and drawing packages based on client requirements, site conditions and project objectives, supporting projects from initial concept through construction-oriented information.
- Prepare existing, proposed and detailed architectural drawings, including floor plans, elevations, sections and site plans, for communication with clients and construction teams.

- Coordinate architectural information with structural, engineering and construction requirements where applicable, helping maintain consistency across project information.
- Review designs from a construction perspective to identify practical, buildable and cost-conscious solutions before implementation.
- Liaise with clients and project stakeholders to understand requirements, resolve design issues and incorporate feedback efficiently.
- Support coordination between design information and site execution by helping contractors interpret drawings and resolve design-related issues.
- Carry out drawing and design revisions in response to client, planning, technical and construction requirements while maintaining organised project documentation.
- Assist with planning-related design development and preparation of documentation required for statutory submissions.
- Maintain accurate and consistent drawing information throughout the design process, supporting effective document and revision management.
- Develop residential design proposals involving extensions, alterations, space reconfiguration and ancillary accommodation, considering functionality, circulation, natural lighting, ventilation and construction requirements.
- Prepare visual presentations and architectural documentation to communicate design proposals clearly to clients and project stakeholders.

RELEVANT DESIGN COORDINATION EXPERIENCE

- Design Development: Worked from client requirements and initial concepts through developed design and more detailed construction-oriented information.
- Construction Interface: Coordinated architectural information with construction requirements and supported contractors in interpreting drawings and resolving design-related issues.
- Drawing & Information Control: Maintained organised architectural documentation and ensured drawing information remained accurate and consistent through revisions.
- Buildability & Quality: Reviewed proposed design solutions from a construction perspective, considering practicality, cost-consciousness and site execution.
- Stakeholder Coordination: Communicated with clients, contractors and other project stakeholders to clarify requirements, incorporate feedback and address coordination issues.
- Operational Documentation: Current role provides additional experience in structured reporting, records control, discrepancy tracking and cross-functional information coordination.

EDUCATION

- M.Sc. Architecture — Kaduna State University | 2024 – March 2026
- B.Sc. Architecture, Second Class Lower Honours — Kaduna State University, Kafanchan Campus | 2016 – 2023
- Senior Secondary School Certificate / NECO — Federal Government College, Malali, Kaduna | 2009 – 2015

LEADERSHIP & TECHNICAL SKILLS

- Secretary General, Society of Architecture Students, Kaduna State University Chapter | 2024 – 2025
- AutoCAD / CAD-based architectural documentation • Microsoft Excel • Microsoft Office • Architectural drawing and presentation tools • Project documentation and reporting

About Me

Hello, I'm Jesse, and i hold a bachelor degree in Architecture from Kaduna State University, where i am presently pursuing a Postgraduate degree in the same discipline, furthering my academic endeavors within the esteemed institution.
My design ethnos is anchored in a profound appreciation for minimalist ideas, wherein the aesthetic mantra of '**LESS IS MORE**' precipitates a distilled and nuanced aesthetic.
In addition to architecture, i engage in writing and teaching with personal interests in driving, reading, singing and tackling complex problems.
My portfolio exemplifies my artistic versatility and innovative capacity, demonstrating a broad spectrum of design expertise.
