PERSONAL SUMMARY:

A result-driven and detail-oriented Civil engineering professional with hands-on experience in site supervision, construction project management, and engineering design. Adept at coordinating project activities, managing schedules, allocating resources, and ensuring compliance with standards. Seeking a project manager role where I can contribute strong organization, technical and communication skills to drive project success.

PERSONAL DATA

Date of birth	09th august, 1999
State of origin	Osun state
Marital status	Single
Nationality	Nigeria

CAREER OBJECTIVES

To leverage my technical background and project coordination experience in supporting the planning, execution, and monitoring of projects, ensuring timely delivery, efficient resource utilization and adherence to quality and safety standards.

CORE COMPETENCIES

- Project coordination & scheduling: experience creating and managing construction schedules to ensure timely project delivery
- Resources management: skilled in allocating materials, equipment and labor within budget constraints
- Documentation and reporting: ability to maintain accurate project records and communication progress to stakeholders
- Technical proficiency: proficient in AutoCAD, Prota-structure, Orion, STAAD Pro, and Microsoft office suite.
- Analytical and problem-solving skills: capable of identifying projects risks and proposing practical solutions
- Communication: effective written and verbal communication with both technical and non-technical stakeholders

- Safety awareness: strong commitment to health, safety, and compliance in project environments.
