PROFESSIONAL EXPERIENCE

Data Analytics Intern- Decode Labs | August 2026- September 2026

- Cleaned and Validated e-commerce sales data to identify missing values, duplicates, inconsistencies, and data-quality issues.
- Performing exploratory data analysis using descriptive statistics, including mean, median, mode, outlier review and correlation analysis.
- Wrote SQL queries using filtering, sorting, aggregation, GROUP BY and related techniques to extract business insights.
- Built an e-commerce sales dashboard and translated analysis into KPIs, trends and actionable business insights.
- Documented analytical work and presented project outputs through GitHub and professional portfolio content.

PROJECTS

Financial Transaction Analysis Dashboard- Power BI

- Built a one-page financial dashboard with KPI cards, slicers, variance analysis, and DAX measures to communicate financial performance and trends.

Netflix Content Analysis Dashboard – Power BI

- Cleaned and transformed Netflix content data and developed an interactive dashboard to analyze titles, content type, countries, directors, cast, and catalog trends.

E-COMMERCE SALES DACHBOARD- EXCEL/ SQL

- Cleaned sales data, performed SQL analysis, created Excel- based analysis, and developed an interactive dashboard to track sales performance and key business metrics.

COVID-19 Data Analysis Dashboard – Power BI

- Cleaned and transformed COVID-19 data using Power Query and created an interactive dashboard covering confirmed cases, recoveries, deaths, and regional trends.

EDUCATION

- Bachelor's Degree in Microbiology

University of Benin

CERTIFICATIONS

- Professional Diploma in Data Analytics

Appclick ICT Academy

- Certificate of Course Attendance –

Data Entry Academy
