DANIEL KOREDE OLANREWAJU

10, Adeite Osunbawo Street, Ejigbo, Lagos State

Telephone: 09077309057

Email: koredeDaniel491@gmail.com

PROFESSIONAL SUMMARY

Chemistry graduate (B.Sc., Lagos State University) with practical grounding in sample preparation, pharmaceutical compound testing, reagent preparation, analytical reporting, equipment care, and chemical testing. Hands on experience from industrial training at Quantum Laboratory, focusing on accurate testing procedures, strict safety standards, and reliable record keeping and specialized undergraduate research in surfactant drug interactions. Combines rigorous laboratory protocols with strong computer literacy to maintain accurate documentation and support quality control workflows. Seeking an entry-level position in a pharmaceutical, manufacturing, or testing laboratory in Lagos.

CORE COMPETENCIES

Laboratory Practice: Sample collection, reagent preparation, basic titration, solution chemistry, physical chemistry testing and testing standards.

Safety & Care: Equipment cleanup, basic maintenance, glassware preparation and adhering to lab safety protocols.

Documentation: Logging test outcomes, tracking sample inventories, and drafting clear reports.

Computer Tools: Microsoft Office (Excel, Word), basic data entry, and digital file management.

EDUCATION

Lagos State University **Lagos, Nigeria**

B.Sc. in Chemistry. 2023

Undergraduate Research Project: *Thermodynamic Study of Cetyltrimethylammonium Bromide Containing 0.4mM Amitriptyline Hydrochloride in Aqueous Medium*

- Executed solution chemistry testing, precise concentration preparations, and thermodynamic analysis on surfactant-drug interactions.
- Applied quantitative physical chemistry techniques and recorded analytical dataset outputs.

WORK EXPERIENCE

Laboratory Assistant (Industrial Training) | Quantum Laboratory

2021

- Prepared chemical samples for scheduled analysis and followed standard testing steps.
- Maintained, cleaned, and checked lab instruments, so they stayed ready for routine work.
- Wrote down test observations and kept clear legible logbooks to prevent mix-ups.
- Handled basic chemicals following facility safety guidelines and waste handling steps.

Computer Operator & Support (NYSC) | Excel Geam World Enterprise

2024

- Handled daily typing, document formatting, and customer data entry with low error rates.
- Set up organized folder structures for storing records and updated client files.
- Assisted colleagues with basic computer usage and solved minor software issues.

Operations Intern | Weeshr

2024

- Reviewed web pages for visual bugs, broken links, and form errors before updates went live.
- Checked user input data for accuracy and helped keep platform records organized.

INTEREST

- Research in Chemistry and Environmental Science.
- Technology, web development, and expanding knowledge in software tools that support scientific research and data management.
- Environmental protection and sustainability initiatives.

ADDITIONAL INFORMATION

- Good team worker.
- A clear writer.
- Reliable with routine tasks.
