Address: Nigeria (Home)

Education & Training

Bachelor of Science (B.Sc.) in Computer Science | Ambrose Alli University | 16/11/2018 - 23/05/2023 | Ekpoma, Nigeria

Data Communication Networking; Web Development; Computer Programming II; Mathematical Methods; Data Structures and Algorithms; Database Management Systems; Operating Systems; Software Engineering; Artificial Intelligence; Computer Architecture.

Final-year project: Detection and Prevention of Impersonation in Computer-Based Testing via Fingerprint Recognition, covering biometric authentication, fingerprint verification, access control, database interaction, privacy and security considerations.

Work experience

Presales Executive & Cybersecurity Associate | Netfocus Technologies Limited | 10/02/2025 - Current | Lagos, Nigeria

- Support cybersecurity and presales activities for enterprise technology solutions.
- Conduct vulnerability assessments on enterprise network infrastructures and document remediation recommendations.
- Review network deployments and configurations to identify security gaps and misconfigurations.
- Analyse system logs and security events to identify suspicious activity and support threat-detection efforts.
- Assist with security-auditing and system-review tasks using Python and Bash.
- Collaborate with technical teams on security controls, customer requirements and solution recommendations.

Information Technology Intern | Murtala Muhammed International Airport | 01/01/2022 - 02/11/2022 | Lagos, Nigeria

- Assisted with monitoring user access controls and identifying unauthorised-access attempts.
- Developed security-awareness materials covering password security, phishing risks and device protection.
- Supported IT operations and researched emerging cybersecurity threats and ransomware trends.
- Documented findings for internal security initiatives.

Skills

Cybersecurity & Security Operations | Security monitoring | Log analysis | Incident triage | Threat detection | Vulnerability assessment | Phishing awareness

Networking | Network security | TCP/IP | DNS | Linux

Tools | Wireshark | Nmap

Automation/Data | Python | SQL | Bash

Concept | Principle of least privilege | Access control

Language Skills

Mother tongue(s): **English**
