PREFA MIEBI GLORIA

Medical Laboratory Scientist
📍 Shomolu, Lagos, Nigeria | 📞 08066576135 | 📧 miebiprefa5@gmail.com

PROFESSIONAL SUMMARY

Dedicated, precise, and detail-oriented Medical Laboratory Scientist with extensive experience in clinical laboratory analysis, specimen collection, quality control, and diagnostic testing. Proven track record across multiple core specialties, including Haematology, Medical Microbiology, Blood Transfusion, Chemical Pathology, Immunology, and Serology. Adept at operating and maintaining advanced laboratory instrumentation, ensuring strict compliance with safety standards, and delivering accurate results to support excellent patient care in fast-paced clinical environments.

PROFESSIONAL EXPERIENCE

Medical Laboratory Scientist

Reliance Family Clinic | Lagos, Nigeria *2024 – Present*

- Perform high-complexity diagnostic testing and laboratory investigations across various departments to assist in accurate patient diagnosis and treatment.
- Manage daily quality control (QC) and calibration protocols on laboratory equipment and reagents to guarantee precision and compliance.
- Ensure impeccable sample collection, processing, and documentation while maintaining patient confidentiality and strict data integrity.
- Adhere to international laboratory safety standards, maintaining a clean, efficient, and well-organized workspace.

Medical Laboratory Scientist

R.JOLAD Hospital | Gbagada, Lagos, Nigeria *2023 – 2024*

- Conducted laboratory investigations and diagnostic testing in Haematology, Medical Microbiology, Blood Transfusion, Chemical Pathology, Immunology, and Serology.
- Analyzed and interpreted laboratory results accurately, ensuring swift turnaround times for critical patient cases.
- Maintained laboratory instruments, performed routine troubleshooting, and ensured proper functionality.

NYSC Medical Laboratory Scientist

Asaba Specialist Hospital | Asaba, Delta State, Nigeria *2021 – 2022*

- Conducted comprehensive laboratory analyses across multiple diagnostic units during the national service year.
- Handled specimen collection, safe sample processing, and accurate documentation.
- Collaborated effectively with multidisciplinary healthcare teams to provide seamless

diagnostic support for patient care.

Intern Medical Laboratory Scientist

Niger Delta University Teaching Hospital | Okolobiri, Bayelsa State, Nigeria *2019 – 2020*

- Assisted in performing essential diagnostic tests in Haematology, Medical Microbiology, and Chemical Pathology.
- Performed blood grouping, cross-matching, and serological testing for safe transfusion practices.
- Participated actively in blood donor screening, preparation, and bleeding procedures.
- Monitored laboratory temperature logs to guarantee the stability of sensitive reagents and patient samples.
- Maintained high professional standards during rigorous day and night shift rotations.

EDUCATION

- **Bachelor of Medical Laboratory Science (B.MLS)** Madonna University, Elele Campus, Rivers State | *2011 – 2018*
- **West African Senior School Certificate (WASSCE)** Benny International High School, Bayelsa State | *2003 – 2009*
- **First School Leaving Certificate (FSLC)** NAOWA Nursery & Primary School, Port Harcourt, Rivers State | *1997 – 2003*

CORE SKILLS

Technical Skills

- **Laboratory Specialties:** Haematology, Medical Microbiology, Chemical Pathology, Blood Banking & Transfusion Science, Immunology & Serology.
- **Operations:** Specimen Collection (Phlebotomy) & Processing, Quality Assurance (QA) & Quality Control (QC), Instrument Calibration & Troubleshooting, Reagent Management.
- **Compliance:** Health, Safety, and Environment (HSE) Guidelines, Infection Control, Accurate Documentation & Record Keeping.

Soft Skills

- Sharp Analytical Thinking & Problem Solving
- Exceptional Attention to Detail
- Excellent Communication & Interpersonal Skills
- Emotional Intelligence & Team Collaboration
- Adaptability & Efficient Time Management

RESEARCH & PROJECTS

- **Health Risks and Effects of Tattooing** Conducted research on the microbiological and immunological risks associated with tattooing practices. Provided an in-depth analysis of potential localized infections, systemic allergic reactions, and the transmission dynamics

of blood-borne pathogens.
